Importing FDA Regulated Products

Overview

The FDA regulates a wide range of products, including foods (except for aspects of some meat, poultry and egg products, which are regulated by the U.S. Department of Agriculture); human and veterinary drugs; vaccines and other biological products; medical devices intended for human use; radiation-emitting electronic products; cosmetics; dietary supplements, and tobacco products.

Feedback

For a list of traditionally-recognized product categories that fall under FDA's regulatory jurisdiction, please visit the What Does FDA Regulate? (/about-fda/what-we-do/what-does-fda-regulate) page.

To learn more about these products and their regulatory requirements please visit the following pages:

Regulated Product	Find Information about:
